The new standard of Efficiency, Capacity, and User Experience; the 1500 Performance Series has specifically designed for Moderate Traffic needs with a high-end presence. Featuring a modern soft touch LED display panel, high quality construction, and un-paralleled reliability; it's the best solution for a luxury office or moderate traffic area.

The LED soft touch control panel allows for futuristic on/off water dispensing. Dispensing both hot and cold water, the 1500P is equipped with surgical stainless steel High Capacity hot and cold tanks, built in leak detector, and an oversized LG compressor and internal stainless steel tubing allowing for a class leading 3.6 Gallons per Hour cooling Capacity and a 1.7 Gallon Per minute Flow Rate.

SPECIFICATIONS & FEATURES

 Weight, 54 lbs
 Cold Tank, 1.2 gallon
 Hot Tank, 0.7 gallon
 Cooling, 3.6 gal/hour 37-50°F
 Heating, 1.7 gal/hour 180°F
 LG Compressor
 Hot & cold water
 Hot water safety lock

4-Stage UltraFiltration

Stage 1: Sediment
 Stage 2: Pre-Carbon
 Stage 3: Ultra-Filtration Membrane
 Stage 4: Post Carbon Filter

Sediment Filter

Removes particulate matter before reaching additional filters. Does not remove chemicals or heavy metals.

Ultrafiltration (UF) Membrane

Removes nearly all high molecular-weight substances (even bacteria and viruses).

Pre-Carbon (GAC) Filter

Removes sediment and compounds that reduce second or third-stage filter life.

Post Carbon / Block Carbon

Removes chlorine and organic chemicals that contribute to bad taste and odor.
